Rev. G. N. Jolly will spend a part of this week in Milldale with the Itinerants Club of Covington District, M. E. Church.

James F. Bratton has had a new roof put on his house, some new doors put in, some partitions run, and a number of the rooms repapered. The house is putting on a bright appearance.

Go to Glen Springs.

Glen Springs is gaining great popularity as a summer resort. Situated, as it is, in one of the most attractive spots imaginable, and the air surrounding being delightfully cool and pure, it is destined to become a most popular place to spend the heated term. It is easily accessible to the C. and O. Railroad and the Ohio river. Quite a number of sojourners are already there, some from far off New York and New Orleans. A great many Maysville people will spend the summer and a large crowd is expected from Cincinnati and surrounding cities. There are ample accommodations for 1,000 people. The opening hop of the season will be given on next Friday, July 1st.

The World's Fair.

The World's Fair Grounds and buildings, now nearing completion, are so renowned as a most beautiful and interesting spectacle that not only do from 5,000 to 12,000 people a day, at a cost of 25 cents a piece, inspect them, but the great majority of travelers who pass through Chicago devote a day or more to the same purpose. Hundreds of distinguished foreigners and thousands of prominent men from the various states of the Union have availed themselves of this privilege, and it is not exaggeration to say that all, without exception, have been most agreeably surprised at the splendor and magnitude of what they witnessed, and have departed very enthusiastic over the bright prospects of the fair. Several hundred of the returning delegates of the late Republican National Convention at Minneapolis inspected the wonders of Jackson Park while in Chicago. Nearly all of the delegates to the Democratic Convention at Chicago have done the same. The Exposition authorities have committees to show visitors about and explain details to them.

Fortunes Made on Patents.

The popular "return ball" yielded the patentee an income of \$50,000 a year. The "Dancing Jim Crow" toy was worth \$75,000 a year to its inventor; the spring window shade, the stylographic pen, the marking pen and rubber stamps, each \$100,000 a year. The common needle threader was worth \$10,000 a year to the man who first thought of it. The rubber tip on lead pencils, the gummed newspaper wrapper, the machine for making type, made rich men of their originators. Silvertone sold his patent for copper tips to children's shoes for \$67,000. Waterman's process for tempering wire netted him \$88,000. Plimpton, the inventor of roller skates, made over \$1,000,000. Burden realized a profit of \$90,000 from his invention in horseshoes. Hoe's printing press made for him in fourteen years \$247,000.

Singer, living in a loft over a stable on the Bowery in New York, with no money and little to eat, was next met in Paris luxuriously enjoying an income of \$1,400 a day. Arkwright, the inventor of the cotton spinning machine, whose father shaved men for a penny in London, acquired a fortune which yielded an income of \$3,000,000 a year, and left at his death nearly \$50,000,000.
